

Religious Education Volunteer Form- *Safe @ Last*

This is a program mandated by the diocese and taught during class time throughout the year. *Safe@Last* is a personal safety curriculum for K -7th grade students. The program gives children the tools they need to avoid dangerous situations by teaching personal boundaries and assertiveness skills. It is an age-appropriate curriculum designed to teach and train children how to act and react in difficult situations. We are looking for multiple volunteers to be trained (one afternoon commitment) and to assist in teaching (2 Sunday session) to either one grade or to multiple grades.
